Concept Maps

With the new release of Inspiration, which includes the ability to create hypertext linkable objects, it will become even a more valuable tool for the classroom.

The Inspiration site includes many exa mples of effective use of the tool in the classroom.

Visor Pick-of-the-Month

Well, I have shifted from a Palm to a Handspring Visor. The plus side is the increased memory, and the Springboard module slot which will accept all types of add-on devices. Check out this page for some upcoming Springboard releases.
