Online Tools for Students

There are all types of online tools for students that are available to help them use the Web to enhance learning. They range from simple note-takers, to more complex tools. Here is a list of some of the most useful!

Blank and Outline Maps

<http://geography.about.com/cs/blankoutlinemaps/>

...hundreds of blank outline maps for use in projects, presentations, etc.

Boolean Machine

<http://kathyschrock.net/rbs3k/boolean/>

...an interactive page which demonstrates the Boolean strategies

Create a Venn Diagram

<http://www.venndiagram.com/venn01.html>

...a great site for students to use to demonstrate similarities and differences

NoodleBib

<http://www.noodletools.com/noodlebib/>

...an interactive online site for students to create MLA bibliographic citations

Project Poster

<http://products.scrtec.org/poster/>

...students can put a project online at this site

Surweb

<http://www.surweb.org/>

...harvest public domain pictures, photos, and multimedia for creating projects

3-D Text Maker

<http://www.3dtextmaker.com/>

...create three-dimensional text for use in posters, projects, etc.
